

Copeland™ reciprocating compressor with compressor protection kit

The complete tune-up and compressor protection kit

The 2010 phase-out of HCFCs was a major milestone for contractors, OEMs, and homeowners alike. With the Copeland CR compressor, Emerson provides a focused product line for your aftermarket replacement needs.

The homeowner who makes the significant decision to replace his compressor should feel secure that his system components are equally reliable. Emerson now offers a complete R-22 tune-up and inspection kit that comes bundled with the Copeland CR compressor. Each kit comes stocked with high quality components compatible with Copeland CR compressors, including capacitors, filter drier, crankcase heater and SureSwitch Relay.

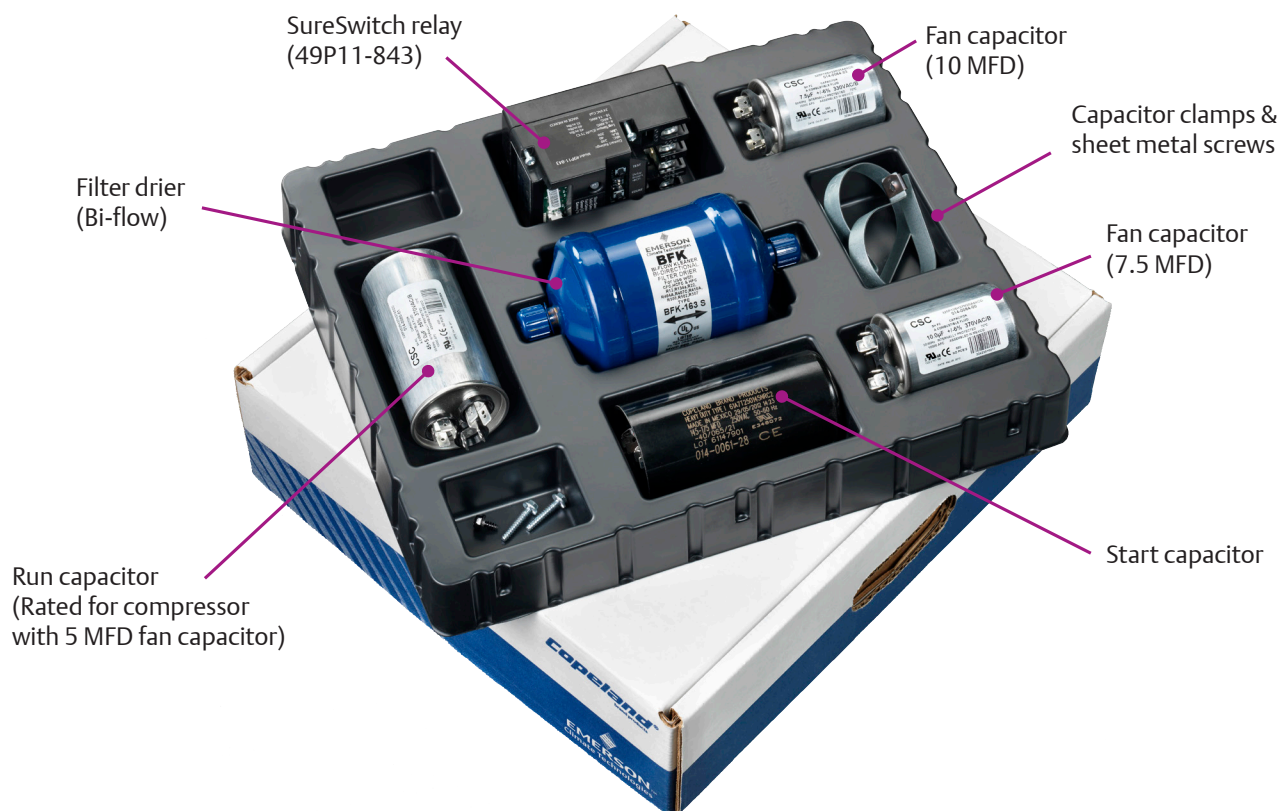

Homeowners and contractors can feel comfortable with a service compressor and kit that will extend the life of the system and reduce costly future repairs.

Contractor benefits

- Less time searching for the right part
- Fewer call-backs with high quality parts
- Possible inventory reduction or consolidation
- Improved troubleshooting speed and accuracy
- Better product offering for existing maintenance agreements
- Enhanced reputation and professionalism

Wholesaler benefits

- Enhanced relationships by ensuring the right parts for the job are in stock
- Improved opportunity for meeting customer needs
- Possible inventory reduction or consolidation
